Target Audience:

Paediatrician, training and career grades, with an interest in allergy, immunology and infectious diseases

Aims and objectives:

Provide delegates with expert opinion on the management of important conditions relevant to paediatric allergy, immunology and infection.

Discuss hot topics in paediatric allergy (asthma and pollution), immunology and infectious disease (COVID 19 research and vector-borne disease), and over-arching topics such as xenophobia and child health.

Update delegates on collaborative research projects relevant to UK paediatric allergists, immunologist and ID specialists.

Showcase high quality research carried out by trainees in paediatric allergy, immunology and infectious disease.

Teaching methods:

Combination of plenary lectures, debate, interactive trainee presentations.

RCPCH has approved this activity for CPD in accordance with the current RCPCH CPD Guidelines.

Registration can be made via the BPAIIG website: <https://www.bpaiig.org/registration-form-winter-meeting>
